

J.B. Hunt

The value of change

Private Fleet Conversion

Our business is moving yours.™

Convert your fleet
and leave the driving,
delivering, assembling
and branding to us.

Simple delivery.
We don't think so.

The word "simple" doesn't apply when it comes to delivering products to your customers. That's why some of the world's most recognizable brands are outsourcing the driving — and the complex transportation solutions — to us.

We're J.B. Hunt Dedicated Contract Services (DCS®), and we bring an array of equipment, technology and creativity to every fleet conversion. As the world's largest dedicated contract carriage, we have the resources to tackle the most difficult deliveries. But we're also nimble and responsive, so we can scale our solutions to fit your needs, whether it's two trucks or two hundred.

We deliver

It's our business and no one does it better. From straight trucks to flatbeds, from temperature control to intermodal, we deliver with the equipment, expertise and a coast-to-coast network of cross docks and resources.

access to additional capacity during peak times; benefit with cost savings by reducing volume during slow times.

Reduce your risk

Outsourcing insulates you from the liabilities and risk that accompany private fleet ownership. No more worries about punitive damages and gap insurance. We reduce your financial risk by eliminating capital expenditures for transportation purchases, the "nickel and dime" costs of leasing equipment and the expensive turn-in fees for equipment repair.

Our technology. It'll move you.

Innovation and practicality unite for systems that enhance your operation. With a deep inventory of logistics systems already developed, and a serious engineering and information systems team, we offer both standard and custom-designed solutions to increase visibility and control. Signature capture, tracking, bar code scanning, scheduling and inventory management are just the beginning.

"It's such a breath of fresh air not to have to deal with running your own fleet. With fuel equipment costs out of the roof, it's just nice to know you have someone with professionalism and the size that J.B. Hunt brings to the table."

Bradley Reynolds,
Vice President
Animal Science Products

We're nimble

We make it easy to reduce or expand our services so you can adapt to a changing business climate. When you outsource with J.B.Hunt DCS, you end those long-term, locked-in equipment leases that can cripple your business. Enjoy

Great work environment

When your employees become our employees, we reward their loyalty by honoring seniority. And they'll find J.B. Hunt DCS is a great place to work. In fact, we were named "One of America's Most Admired Companies" by *Fortune Magazine*, and we made *G.I. Jobs Magazine's* list of the "Top 50 Military Friendly Employers."

Our trucks. Your brand. You probably see our trucks daily but don't recognize us. We're often completely transparent. We wear our clients' uniforms,

drive trucks with their logos and operate as an extension of their enterprise. And we do this with the same poise and professionalism we bring to our own brand. It's our trucks, your brand, and the same outstanding service your customers have come to expect.

Let's get started

We're the experts at converting your fleet. Whether you own or sublease, we can walk you through the legal and contractual requirements. Start the process today by contacting J.B. Hunt DCS and let's explore the benefits of fleet conversion.

"When we started exploring the conversion from private fleet to J.B. Hunt DCS, we were adamant that we wanted a win-win situation for our drivers. Hunt did everything in their power to ensure that our drivers were better paid, had better benefits, and possibly have a better job than what we can provide."

Jimmy Keeter,
Chief Financial Officer
Daylight Donut Flour Company
